SUMMARY

Passionate about technology and innovation, I have developed strong skills in Full Stack Development with hands-on experience using the MERN stack. I have built real-world projects and actively explored open-source contributions. I am now seeking opportunities in software development where I can apply my knowledge, grow as a developer, and contribute to impactful products

Education

APJ Abdul Kalam Technical University

Bachelor of Technology in Computer Science and Engineering

Sep. 2021 – June 2025

Lucknow, Uttar Pradesh

Relevant Coursework

- Backend Development (Node.js, Express.js, MongoDB,)
- Web Development (HTML, CSS, JavaScript, React , Next.js)

Experience

Web Development Intern

Sep 2024 – Mar 2025

Digipodium

- Developed full-stack web applications, optimizing backend performance and frontend UI/UX.
- Gained hands-on experience in modern web technologies and best development practices. • Improved project functionality by fixing bugs and implementing new features.

Projects

College project showcase webapp | *MERN Stack, , Vercel, Render* | §[LINK](#)

- Developed a dynamic College Project Showcase website using the MERN stack, allowing students to upload, display, and manage their academic projects.
- Implemented features like project filtering, search functionality, and responsive design to enhance user experience.
- Focused on clean UI/UX and integrated MongoDB for efficient project data storage and retrieval.
- Implemented CRUD operations, secure authentication, and user review functionalities.
- Deployed the frontend on Vercel, and backend on Render, ensuring smooth integration.

Eco-project Marketplace webapp | *Next.js, React, Express, MongoDB* | §[LINK](#)

- Built an EcoProject Marketplace web application using the MERN stack to promote eco-friendly products and services..
- Integrated features like product listing, user authentication, and secure payment simulation for a seamless user experience.
- Designed a responsive UI for multi-device accessibility and seamless user interaction.

Amezing- Portfolio |*React, tailwind css MongoDB,*| §[LINK](#)

- Designed and developed a personal portfolio website using React/Next.js to showcase projects, skills, and certifications professionally.

Implemented a responsive and modern UI with smooth navigation, making it mobile-friendly and user-centric.

Technical Skills

- Programming Languages:** JavaScript , Python
- Frontend Technologies:** React, Next.js , Tailwind CSS, HTML5, CSS3,
- Backend Technologies:** Node.js, Express.js, REST APIs, WebSockets
- Database:** MongoDB, MySQL
- Developer Tools:** VS Code, Git, GitHub, Postman, Render, Vercel
- Libraries Frameworks:** Passport.js, Socket.io, Redux, WebRTC

Certifications

Course Training – Mern-Stack Development	2025
<i>Certified by Digipodium</i>	
• Completed structured training covering Mern-Stack Development (MERN) .
